Rosario, Argentina · [LinkedIn](#) · +54 9 341 214 9033 · gianlucacaravone55@gmail.com

Full Stack Web Developer and QA Engineer with experience in designing, developing, and validating complete web applications. Skilled in modern technologies such as React, Next.js, Node.js, Express, PostgreSQL, and MongoDB, creating responsive, scalable interfaces focused on delivering the best user experience.

In the QA field, I have hands-on practice with both manual and automated testing using Selenium, Cypress, and Postman, validating endpoints, databases, and reporting critical bugs. My background as a Full Stack Developer strengthens my technical and analytical approach, ensuring efficiency in error detection and resolution.

Familiar with agile methodologies (Scrum) and collaborative environments, I add value to teams through clear documentation, effective communication, and contributions to continuous software improvement, always prioritizing quality, scalability, and project efficiency.

PROFESSIONAL EXPERIENCE

IARA Labs (Internship)

Front-End Developer & Manual QA

Buenos Aires, Argentina

Jul 2025 – Sept 2025

- Designed and developed prototypes and landing pages using React and Tailwind CSS to showcase the personalized marketing agent's features, ensuring modern, scalable, and product-aligned interfaces.
- Performed functional validation and usability testing on implemented mockups, identifying inconsistencies and proposing improvements that optimized user experience prior to final integration.
- Executed systematic manual QA tasks, acting as an end-user to ensure a smooth, accessible, and reliable product experience, contributing to the overall quality of the final delivery.

FinTrack (Project)

QA Engineer

Argentina

April 2025 – Jul 2025

- Execution of manual and automated testing on critical features: registration, transfers, account management, and reporting.
- Use of Postman, Cypress, Selenium, and Jira for API, UI, integration testing, and issue tracking.
- Reporting and documenting critical bugs, including test cases and evidence for the development team.
- Participation in Scrum ceremonies and design of functional, regression, and exploratory test suites for each release.

Luxora – Sophisticated Furniture (Project)

Full Stack Developer (Front-End)

Rosario, Argentina

Feb 2025 – April 2025

- Designed and developed scalable and responsive interfaces, optimizing performance with 30% faster load times and improving accessibility across devices.
- Integrated Front-End and Back-End with RESTful APIs, ensuring smooth communication, secure responses, and real-time consistency.
- Implemented a user-centered UI/UX approach with reusable components and usability testing, enhancing customer satisfaction and engagement.

EDUCATION

Soy Henry

Full Stack Developer

Argentina,

April 2025

Edutin Academy

Software's Tester

USA,

Dec 2024
